## Acoustic V-braze Technical Datasheet

### Description

The Acoustic V-braze is a specially engineered product for bracing twin frame Drywall partitions. V-braze made with Spring steel to optimize acoustic performance on the Dry Wall System.

### Primary Data

<b>Drywall Product</b>	Acoustic V-braze
<b>Drywall System</b>	Applicable for Partition & Liner System
<b>Coating</b>	AZ150 Zinc- Aluminium Alloy
<b>Steel Grade</b>	G300 Min. Yield Strength: 300 Mpa Min. Tensile Strength: 340 Mpa
<b>Material</b>	Galvanized Steel

### Technical Data
