

GYPSEMNA
DOUBLE SPRING
CLIP
GRID CEILING
SYSTEM

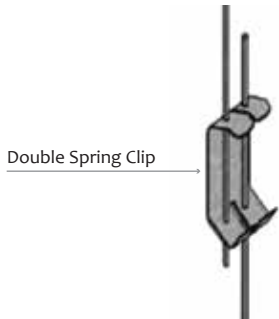

■ DESCRIPTION

The Adjustable Double Spring Clip is a component of the T24 grid ceiling system. One suspension rod connects the eye-hole anchor to clip and the other rod connects the main tee to clip. Both rods are connected to the double spring clip, allowing adjustment to the desired ceiling height. This double spring clip is specially designed and manufactured to hang the primary section (Main Tee) from the ceiling.

■ BASIC USES

Applicable for T24 grid ceiling system as adjustable double spring clip.

■ TECHNICAL DATA

PHYSICAL PROPERTIES

Coating	Black phosphated, blackodised and plated
Material	Spring steel
Thickness	0.3mm
Width	30mm
Height	57mm

■ ADVANTAGES

- Consistently high quality.
