

GYPSEMNA
T-GRID SUSPENSION
SYSTEM
GRID CEILING
SYSTEM

DESCRIPTION

Gypsemna T24 T-Grid Suspension System is a lightweight, interlocking ceiling framework with an exposed grid designed to support our range of Gypsemna ceiling tiles. The combination of the pre-decorated white exposed grid and white ceiling tiles delivers a clean and aesthetically pleasing finish.

APPLICATIONS

Gypsemna T24 T-Grid Suspension System is the ideal solution for use with our Gypsemna Ceiling Tile range, especially where quick and easy access to any part of the false ceiling is required. It's advantages include being lightweight, easy to install, attractive and providing an attractive, aesthetic surface finish. It is suitable for a wide range applications including residential, commercial, healthcare, airports, cinemas and educational projects.

COMPONENTS

Gypsemna T24 T-Grid Suspension System is composed of three main components; The Main Tee, the Cross Tee and the Perimeter Angle. These components are manufactured from G.I.Steel with a pre-decorated aluminum capping.

PACKAGING

Gypsemna T24 T-Grid Suspension System components are individually packaged in corrugated cardboard boxes and are supplied in the following quantities:
